

## American Literature

---

1. Remembering: Students will be able to recall and summarize key themes, characters, and events in American poetry, drama, and fiction.
2. Understanding: Students will demonstrate an understanding of the historical and cultural contexts in which American literature was produced, as well as the literary techniques and devices used by authors in their works.
3. Applying: Students will apply critical thinking skills to analyze and interpret various literary works, identifying symbolism, metaphor, and other literary devices employed by American poets, playwrights, and novelists.
4. Analyzing: Students will analyze and evaluate the social, political, and cultural implications of American literature, exploring how these works reflect and shape the American experience.
5. Evaluating: Students will evaluate different interpretations of American literary works, formulating their own informed opinions and arguments based on evidence from the text.
6. Creating: Students will demonstrate their understanding of American literature by creating their own original works of poetry, drama, or fiction that reflect the themes and styles of the American literary tradition.
