

Comparative Education

Course Outcome:

By the end of this course, students will be able to:

1. Remember and understand the key concepts and principles of Comparative Education with a focus on emerging issues in SAARC countries and the role of education.
2. Apply their knowledge of factors influencing Comparative Education such as geographical, socio-cultural, historical, philosophical, economic, linguistic, scientific, structural, and functional factors to analyze the education systems in SAARC countries.
3. Analyze and evaluate the impact of these factors on the education systems of SAARC countries and identify potential areas for improvement.
4. Synthesize information from various sources to develop informed recommendations and solutions for addressing challenges and promoting educational development in SAARC countries.
5. Create and present well-structured arguments and discussions on the importance of Comparative Education in understanding the diversity and complexities of education systems within the SAARC region.
6. Evaluate the role of education in promoting social inclusion, economic development, and cultural diversity within SAARC countries through a comparative lens.
7. Apply critical thinking and problem-solving skills to propose innovative approaches to addressing emerging issues in education within the SAARC region.
8. Demonstrate effective communication skills through written reports, presentations, and discussions on topics related to Comparative Education and emerging issues in SAARC countries.
