

## Imperialism in Action: From the 15th to the 20th centuries

---

1. Remember: Identify and recall key events and figures in the history of imperialism from the 15th to the 20th centuries.
2. Understand: Explain the motivations and impacts of the first wave of European overseas colonization on indigenous peoples and cultures.
3. Apply: Analyze the structures of power and exploitation employed by imperialist nations in Africa, the Indian Ocean, North America, and Australia.
4. Analyze: Compare and contrast the interventions in Africa and the Indian Ocean by European powers, with a focus on the East India Companies beyond South Asia.
5. Evaluate: Critically assess the expansion of empires in Africa, the Middle East, and the Americas, including American imperialism in Hawaii, the Philippines, and Cuba.
6. Create: Formulate a coherent argument about the implications of imperialism on the political thought and historiography of the affected regions.
7. Synthesize: Integrate postcolonial ideas of empire into the overall narrative of imperialism in the 15th to 20th centuries.
