CAREER OBJECTIVE

Observe. Learn. Initiate. Execute. Succeed..... Repeat

I believe that for the development of the country as a whole “best” teachers are the crying need of the hour because education is the panacea of all evils. I also believe that the students are full of possibilities and it is our sacred duty to explore in them that possibility so that they can be good citizens of the country. If I am given the opportunity I will be able to make the best use of my talents as well as skills by way of exploring those possibilities so that the institution with which I will be associated can be transformed into a “class by itself”.

EDUCATION

Degree	Board / University	Name of the Institution	Year of Passing	Percentage	Class / Div.
