

<b>Semester: VIII</b>				
<b>Programme: POLITICAL SCIENCE</b>				
<b>Course: INTERNATIONAL POLITICAL ECONOMY</b>				
<b>Paper code:</b>			<b>Credits: 6</b>	
<b>Hours/week: 4</b>				
<b>Category: CORE/ MAJOR</b>				
<b>Theory / Practical / Composite: THEORY</b>				
<b>No of Modules: 2</b>				
<p><b>Course Overview:</b> To help students comprehend how International Political Economy considers the flows of production, distribution and consumption across borders, recognizing that not just national governments play a role, but foreign governments and international institutions must also be taken into account.</p> <p>To equip students with a comprehensive knowledge of the impact of globalization on developing countries in the context of contemporary international issues like civil society, social movements and human migration.</p>				
<b>Course Outcome:</b>				
1. Identify the major dimensions of international political economy, its evolution as a discipline, different paradigms and issues				
2. Explain the concepts, ideas and literatures on the economic relations among states, and between states and non-state actors				
3. Apply these themes in the interpretation of contemporary issues in political economy and explore possible resolutions of problems				
4. Examine the various dimensions of the themes, the basic concerns that governed their development, focussing on major shifts at certain junctures				
5. Critically assess the processes of global integration and fragmentation of international politics and economics				
6. Develop alternative concepts and approaches based on the identification of gaps and flaws in the existing formulations for more effective responses to contemporary challenges				
<b>Prerequisites: <i>Basic knowledge about any prior course</i></b>
